(A. P. NIGHT REPORT)

LONDON, May 1, 3:50 a.m.—(By Atlantic Cable.) The latest news received from the Orange Free State indicates that though the Boers have vacated Thabanchu, they have only done so in order to occupy stronger positions. Sun and Gen. De Wet, who returned from Pretoria, say that the Boers have disappeared, is to harass the Boers and prevent any well-organized retreat.

The war specials today consist chiefly

of the Boers' complaint that some of the British prisoners at Pretoria are lodged in the town jail, says that only those are treated fairly, while many are subjected to trying to escape. He reports, moreover, that the Boer prisoners are confined in the town jail at Pieternelarburg and are ill.

The Boers' leading paper, also, gives prominent to the statement of a news agency that Sir Redvers Buller sent his resignation to Lord Roberts after the Spankop censures were published, and that Lord Roberts declined to accept it.

[POLITICAL]

VICTORY CERTAIN.

Senator Hanna Makes First Prediction.

Gratifying Spirit Among All Republicans.**Ticket Cannot Lose Except by Over-Confidence.****Earnest Work Will Make the Re-election of President McKinley Sure.**

[A. P. NIGHT REPORT.]

CLEVELAND, (Ohio), April 30.—The Leader received from its Washington correspondent the first statement from Senator Hanna, who is chairman of the Republican National Committee, concerning the outlook of the coming Republican campaign from a Republican standpoint.

"As a result of careful study of the situation, I feel perfectly safe in maintaining at this time that McKinley will be re-elected. There is no way of figuring how the Republicans can lose in the coming contest if they put their shoulders to the wheel and are not imbued with a spirit of overconfidence." The Republicans should make the same kind of fight they did in 1896. "There should be no cessation in their endeavor to elect their candidates and their application and attention to the details of the campaign must be steady and unceasing. They should go to the voters on the sure position that hard work is absolutely essential to victory."

"The spirit of Republicans this year is of a most gratifying kind. At the Ohio State convention, held in Columbus last week, this spirit was manifested. The delegates even then were preparing for the great political battle which is soon to begin, and it was patent that they will go into it with great energy. Senator Fairbanks, who has just returned from the Indiana convention, has said that the Republicans of his State possess the same inspiration. It is true of Republicans in every State, and all reports which have been received since the election of the new Congress are plentiful that the Republicans all over the country realize fully the necessity of entering the campaign with energy and a determined effort to win a victory."

[A. P. NIGHT REPORT.]

FRANKFORT, April 30.—The grand jury reported at 3 o'clock. No additional indictments were made public.

The report of the grand jury was summoned as witness refused to appear and give testimony before that body, and recommends that they be discharged from contempt.

OLD FEUD TERMINATED.

[A. P. NIGHT REPORT.]

LONDON, (Ky.), April 30.—It is stated that the White-Howard feud of Clay county is all but over.

The factions have made friends and have decided not to prosecute the several murder charges against the Bakers, and that faction will not appear in court to testify. The indictment of the murder of George Baker, and the indictments will be dismissed. James Howard is one of the men who are members of the family of William Goebel at Frankfort. Many men have been killed in this feud.

[A. P. NIGHT REPORT.]

ALL ARRANGEMENTS COMPLETE.

[BY DIRECT WIRE TO THE TIMES.]

PHOENIX (Ariz.), April 30.—[Exclusive Dispatch] Territorial Secretary Charles H. Akers of Phoenix, chairman: Charles R. Drake of the Republican Central Committee; Senator A. V. Bell, Flagstaff; J. L. Hubbard, St. Johns, and Frank Dwyer, Solomonville, are the delegates to the National Republican Convention chosen today by the Republican Territorial Committee. The attorney, Mr. Gaddis of Tucson, W. H. Clark of Navajo, R. A. F. Penrose of Coconino, Charles Solomon of Graham and Thomas Grindell and George Christy of Maricopa.

The resolutions endorsed McKinley as the main feature of the campaign, and called upon him to endorse the name of his candidate, Isaac Stoddard.

Finally, after a season of acrimonious speechmaking, the Yavapai delegation arose en masse, wrenched from its place the curtain banner, and with it the chair, from the platform, and United States Attorney T. E. Benson of Phoenix was chairman and District Attorney W. F. Cooper of Tucson, secretary. Only one contest was had for seats. It was from Santa Cruz county, and was decided in favor of W. P. Harlow and Allen T. Bird.

[KENTUCKY CASE ARGUED IN THE SUPREME COURT.]

[A. P. DAY REPORT.]

WASHINGTON, April 30.—The argument in the Kentucky governorship case was begun in the United States Supreme Court at 12:30 today. The first petition was made on behalf of Gov. Taylor by Attorney Helm Bruce.

Mr. Bruce was accompanied by a number of distinguished advocates and the lobby was crowded. The members of the court were present and from the beginning gave close attention to Mr. Bruce's presentation. The court adjourned and the hearing was adjourned to the afternoon of May 1.

Mr. Bruce's contention was that it was waged in a court of justice and not on a field of carnage because in entering the Union, Kentucky had surrendered its right of resistance. He

came to this court on the basis of the principle laid down in an opinion of the former court on the arbitrary exercise of power of government unrepresented by private interests and justice could not be tolerated.

Mr. Bruce reviewed the case at length upon its merits, contending that after the issuance of the certificate of election, Mr. Taylor was as much the governor of Kentucky as any man who had ever been inaugurated for that office. He denied the legal basis of the administration's contention at all, contending that to oust Mr. Taylor by this process would be depriving him of his office by despotic power and not by due process of law.

Referring to the contest before the Kentucky Legislature, he said that the report of the committee of investigation was not a final report, but a fact, and that it was made at a secret meeting of the Assembly, of which no Republican member had been notified. In this connection he referred again to the charge that the ballots used were thinner than required by law. If this were true, he said, the whole basis of the State's wrongs were committed, and every oath taken of the voters of the State could not be deprived of the right of franchise on such a plea.

MURDER TRIALS BEGIN.

[A. P. NIGHT REPORT.]

FANKPORT (Ky.), April 30.—Five of the defendants charged with complicity in or as accessories to the murder of William Goebel were arraigned this afternoon before Judge Cantrell. They are: Caleb Powers, Capt. John W. Dyer, Harland Whitaker, W. H. Culton and Richard Combs, colored. All of them entered pleas of not guilty. Henry E. Young, who was to be tried later, was arraigned and pleaded not guilty, joined with the other prisoners in asking for a change of venue.

After the arraignment, ex-Gov. John Young, the defense, and the pardons granted by Republican Gov. Taylor to Caleb Powers and John Dyer, and offered them as a bar to the prosecution, were arraigned. The pardon, ex-Gov. Brown said, that he did so as a matter of form, and not with the hope that the court would sustain the defense.

Judge Cantrell, in overruling the motion, said: "The alleged pardons are not good in law. The title of the office of Governor is in dispute, and the litigation over it is still pending in court. Several of the courts have passed on the question at issue, and those that have so passed thereon do not agree. The Governor is not Governor and was not at the time that the pretended pardons were granted."

CALIFORNIA DEMOCRATS.

EXECUTIVE COMMITTEE MEETS.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, April 30.—The Executive Committee of the Democratic State Central Committee met this afternoon at the California Hotel, San Francisco.

Chairman Mann, with his conclusions to the State convention, which will meet Saturday next, will meet to take final action and set a day and place for the holding of the State convention.

ISSUING OF A CALL.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, April 30.—After discussion it was decided to leave to the State Central Committee the matter of issuing the call for the State convention, fixing the date, the place, the members and the method of selecting delegates. Chairman Mann announced that he would not be a candidate for election. The financial affairs of the committee were considered in executive session.

not longer retain self-government in the United States. If we send an army of 65,000 men to subdue aspirations for self-government in the Orient, those who have become impressed with those ideas of oppression. The Filipinos may be either a class of savages. I challenge any one to cite any despot in all time upon whom more autocratic power has been conferred as to rule than that which is given the President of the Porto Rican Bill.

Bryan warned the people against being misled into the notion that the President could ride in safety, dependent upon the plain provisions of the Constitution which he has sworn to uphold.

BIG SILVER BUGS CONFER.

BRYAN TO TALK EXPANSION.

[A. P. DAY REPORT.]

CHICAGO, April 30.—The Tribune says that a private held here last night between William J. Bryan, J. G. Johnson, chairman of the Democratic National Executive Committee, and Abbott, editor of the Bulletin, and Mayor Harrison, that latter assured Bryan that Illinois would send a solid Bryan delegation to the convention.

It was agreed, it is said, that expansion would be made as prominent and important an issue in the campaign as possible.

Complaints were filed yesterday against three of the prisoners in the City Jail suspected of complicity in the murder of Joseph Hildner on the night of April 21, but the complaints did not charge them with the killing of Hildner, evidence to that crime being hard to obtain. There is ample evidence to hold them on other charges, however, and they will be prosecuted while the murder mystery is being further investigated.

Harold Williams, alias Baldwin, the most notorious of the prisoners, was arraigned before Justice Morgan yesterday on two charges of burglary, one for robbing the residence of M. J. Smith, Notary Public, on Wall street, April 25, the other for the George H. Williams offered to waive preliminary examination, but insisted on both charges at once, saying: "I want to get away from here as soon as possible."

The preliminary will be waived under the law, but Williams will be accommodated with all the expedition possible. Both of his cases were set down for preliminary examination.

C. S. Darow and several other prominent Democrats also paid their respects to Bryan.

Bad-tempered conditions were shaping themselves to his satisfaction. He said it would be impossible for him to meet Admiral Dewey in Chicago, and offered them as a bar to the prosecution.

Young, who was to be tried later, was arraigned and pleaded not guilty, joined with the other prisoners in asking for a change of venue.

ILLINOIS POPULIST CONVENTION.

[A. P. NIGHT REPORT.]

CHICAGO, April 30.—The Illinois State Convention of the Populists was held yesterday morning at the Hotel Belmont in Chicago.

Young, who was to be tried later, was arraigned and pleaded not guilty, joined with the other prisoners in asking for a change of venue.

CALIFORNIA DEMOCRATS.

EXECUTIVE COMMITTEE MEETS.

[A. P. NIGHT REPORT.]

SAN FRANCISCO, April 30.—The Executive Committee of the Democratic State Central Committee met this afternoon at the California Hotel, San Francisco.

Chairman Mann announced that he would not be a candidate for election.

The object of the meeting as stated by the chairman was to call for a State convention to be called for the purpose of electing delegates to the national convention which will meet at Kansas City, July 4.

Chairman Mann, with his conclusions to the State convention, which will meet Saturday next, will meet to take final action and set a day and place for the holding of the State convention.

GRAND JURY REPORTS.

[A. P. NIGHT REPORT.]

FRANKFORT, April 30.—The grand jury reported at 3 o'clock. No additional indictments were made public.

The report of the grand jury was summoned as witness refused to appear and give testimony before that body, and recommends that they be discharged from contempt.

OLD FEUD TERMINATED.

[A. P. NIGHT REPORT.]

LONDON, (Ky.), April 30.—It is stated that the White-Howard feud of Clay county is all but over.

The factions have made friends and have decided not to prosecute the several murder charges against the Bakers, and that faction will not appear in court to testify.

James Howard is one of the men who are members of the family of William Goebel at Frankfort. Many men have been killed in this feud.

[A. P. NIGHT REPORT.]

ALL ARRANGEMENTS COMPLETE.

[BY DIRECT WIRE TO THE TIMES.]

PHOENIX (Ariz.), April 30.—[Exclusive Dispatch] Territorial Secretary Charles H. Akers of Phoenix, chairman: Charles R. Drake of the Republican Central Committee; Senator A. V. Bell, Flagstaff; J. L. Hubbard, St. Johns, and Frank Dwyer, Solomonville, are the delegates to the National Republican Convention chosen today by the Republican Territorial Committee. The attorney, Mr. Gaddis of Tucson, W. H. Clark of Navajo, R. A. F. Penrose of Coconino, Charles Solomon of Graham and Thomas Grindell and George Christy of Maricopa.

The resolutions endorsed McKinley as the main feature of the campaign, and called upon him to endorse the name of his candidate, Isaac Stoddard.

Finally, after a season of acrimonious speechmaking, the Yavapai delegation arose en masse, wrenched from its place the curtain banner, and with it the chair, from the platform, and United States Attorney T. E. Benson of Phoenix was chairman and District Attorney W. F. Cooper of Tucson, secretary. Only one contest was had for seats. It was from Santa Cruz county, and was decided in favor of W. P. Harlow and Allen T. Bird.

[KENTUCKY CASE ARGUED IN THE SUPREME COURT.]

[A. P. DAY REPORT.]

WASHINGTON, April 30.—The argument in the Kentucky governorship case was begun in the United States Supreme Court at 12:30 today. The first petition was made on behalf of Gov. Taylor by Attorney Helm Bruce.

Mr. Bruce was accompanied by a number of distinguished advocates and the lobby was crowded. The members of the court were present and from the beginning gave close attention to Mr. Bruce's presentation.

The court adjourned and the hearing was adjourned to the afternoon of May 1.

Mr. Bruce's contention was that it was waged in a court of justice and not on a field of carnage because in entering the Union, Kentucky had surrendered its right of resistance. He

came to this court on the basis of the principle laid down in an opinion of the former court on the arbitrary exercise of power of government unrepresented by private interests and justice could not be tolerated.

Mr. Bruce reviewed the case at length upon its merits, contending that after the issuance of the certificate of election, Mr. Taylor was as much the governor of Kentucky as any man who had ever been inaugurated for that office. He denied the legal basis of the administration's contention at all, contending that to oust Mr. Taylor by this process would be depriving him of his office by despotic power and not by due process of law.

Dr. Victor Hall, President.

ONE MORE HOLD-UP.

Barber Says He Was Robbed on Sunday Night.

Suspects in City Jail Arraigned for Burglary and Larceny. Lawlessness Abated.

One hold-up was reported to the police department of New York last night. The victim was W. H. Briscoe, a barber employed at the Westminster Barber shop. Briscoe alleges that he was stood up on Wall street between Fifth and Sixth about 11 o'clock Sunday night, and relieved of \$100. He says there were two men in the robbery, one of whom about five feet ten inches tall, and of medium build, the other a few inches shorter, and rather slim. Both wore dark clothes.

Complaints were filed yesterday against three of the prisoners in the City Jail suspected of complicity in the murder of Joseph Hildner on the night of April 21, but the complaints did not charge them with the killing of Hildner, evidence to that crime being hard to obtain.

It was agreed, it is said, that expansion would be made as prominent and important an issue in the campaign as possible.

NOT A DEAD ONE.**Fitzsimmons Knocks Out
Ed Dunkhorst.****Giant Lasts Less Than
Two Rounds.****Went Down With a Crash
from the Blow.****Oscar Gardner Defeats Patsy.
Racing at Oakland Track.
Baseball Games.**

(A. P. NIGHT REPORT.)

NEW YORK. April 30.—At the Hercules Athletic Club tonight Bob Fitzsimmons proved that he is fast from being a "dead one." In less than two rounds he knocked out Ed Dunkhorst, the Syracuse giant, a feat which the taller and bigger men found difficult. Fitzsimmons showed that his wonderful hitting power has not forsaken him, and he was as lively on his feet as ever, but had little time in which to display the fact. The bout was booked to go fifteen rounds.

Fitzsimmons was cheered lustily when he entered the ring. The attendance was 400. Dunkhorst was attended by Tommy Ryan, Jack Jeffries and Dan Johnson. The lanky fellow was looked after by Ernest Roebber, Jeff Thorne and Dan Hickey. Dunkhorst apparently weighed 260 pounds, and was very fat. Bob looked fit and spry, and did well. When they shook hands it was seen that Dunkhorst had hit at least two inches.

As the bell rang, Dunkhorst assumed a crouching position. Fitz walked around him for a brief second, and hooked a left that raised a lump on Ed's right eye. He then took another of the same, and a second later, and then drove his left hard to the wind, and ducked a right swing for the head. Dunkhorst landed a left to the face, and Fitz closed the round with left and right to the body. Dunkhorst opened the second round with a left to the face and Bob hooked him left to the face again. Ed then recovered, took a look at the mouth, and then hooked his left hard to the wind, and ducked a right swing for the head. Dunkhorst landed a left to the face, and Fitz closed the round with left and right to the body. Dunkhorst was 2000. Score: Boston, 2; hits, 11; errors, 2. Brooklyn, 5; hits, 6; errors, 1. Baltimore—Hawley and Warner; Dunn and McGuire.

(A. P. NIGHT REPORT.)

CHICAGO. April 30.—St. Louis went to the lead in the third round, and the third, and on the most miserable displays together with Harper's poor work presented the home team with a hard-fought win. The attendance was 11,000. Score:

Chicago, 9; hits, 7; errors, 6. St. Louis, 6; hits, 10; errors, 4. Baltimore—Hawley and Warner; Dunn and McGuire.

(A. P. NIGHT REPORT.)

KNOCKED OUT BY WYATT EARP.

(TOM MULQUEEN GAINS FAME.)

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, April 30.—[Exclusive.]—Wyatt Earp, gun fighter and all-around man, was knocked down and out late Saturday night by Tom Mulqueen, the well-known race-horse man. The trouble occurred in a swell Market-street resort near Stockton, and was precipitated by Earp. Both men had been drinking at the bar, when Earp brought up the subject of the recent scandal at Tanager track. He made several disparaging remarks about Earp, who is on very friendly terms with Mulqueen. When called down he became belligerently indignant, and threatened to wipe the floor with the horse owner. Instantly Mulqueen grabbed him, and after throwing him against the bar, landed a blow on the gun fighter's face, knocking him out. John Farley, proprietor of the place, came to the rescue, and the two men, managed to induce Mulqueen to leave the place.

Mulqueen gained considerable notoriety several years ago by calling down Bob Fitzsimmons. They were in a saloon drinking, when the ex-champion referred to Corbett as a looking-glass fighter. Mulqueen promptly resent that remark, and struck the braggart Fitzsimmons' scented head if he repeated it. Fitzsimmons, not caring to mix it with the plucky horseman.

Earp first came into prominence in this city when he officiated as referee in the fight between Fitzsimmons and Sherry several years ago, and gave the decision to the sailor on an alleged foul, after the latter had been knocked out, a decision that created general dissatisfaction.

UNIVERSAL BENEFITS OF EXPANSION.

The opponents of expansion have sought to prove that the American farmer is in no wise benefited by the extension of our territory and the expansion of our international trade. But the facts are against them—and facts are stubborn things to run up against. There is food for thought, and lots of it, in the statements concerning the recent growth of our foreign trade, made by Frank H. Hitchcock, chief of the section of foreign markets in the Department of Agriculture, as summarized in a special dispatch to the Times, published in yesterday's issue.

The keynote of Mr. Hitchcock's citation of facts is found in the opening sentence of the dispatch, in which he declares that "the American farmer as well as the American manufacturer is reaping the benefits of expansion." He might have gone further, and might have said with absolute truthfulness that every American citizen is reaping, and is destined to reap even more liberally than he is now reaping—the benefits of expansion in the not very distant future. For every agency and influence that tends to make the farmer, the manufacturer, and the merchant more prosperous, tends directly to benefit the great body of citizens who depend upon their daily toil for obtaining the means of subsistence.

The manufacturer whose mills and factories are busy, and who is selling his products at a profit, is far better prepared to employ labor, and to pay liberal wages, than is the manufacturer whose mills are idle and whose capital is unremunerative. The farmer who finds a ready market for his product, at good prices, and the merchant who has a thriving trade, also employ more laborers, as a matter of course, to assist in the handling of their business. Therefore, if it can be shown that expansion has increased, or tends to increase, the business of the manufacturer, the farmer, and the merchant, it becomes evident also the great mass of the people who depend upon their labor for subsistence.

Mr. Hitchcock shows that our sales of agricultural products abroad during the last three years were more than \$600,000,000 greater than the sales of the same class of products during the three years immediately preceding—the years 1894, 1895, 1896. He does not give the figures for our manufactured products, and statistics are not had for the precise period named; but our exports of manufacturers have enormously increased during the last three years, and have probably kept pace with the increase of agricultural exports. This increase has in large part been due to the policy of expansion—the reaching out of American enterprise and energy in every direction for remunerative trade. Not all of our increased exports, of course, have gone to our newly-acquired possessions; but a considerable quantity of them have gone there, and under conditions extremely unfavorable for trade. When the questions now pending shall all have been answered satisfactorily, when peace and order shall have been restored in the Philippines, when the new civil governments in those islands, in Cuba, and in Porto Rico shall have been got into good working order, our trade with these islands and empires will vastly and rapidly increase, and every dollar of increase will be of benefit to American labor, American farmers, and American manufacturers.

But more than this, and of vastly greater importance from the economic standpoint, is our prospective trade with the Orient, where exist 400,000,000 people, pausing at the threshold of a new life and a new development, ready to absorb unnumbered millions of the products of our farms, our mines, and our workshops, so soon as they shall learn to appreciate the uses and the true meaning of the language which he employs. For we have already gone as far as friendly diplomacy can take us in tendering our good offices, and to go further would be an open and pre-meditated insult to the government of Great Britain, which that government would be justified in resenting.

Admiral Dewey was received in Chicago yesterday, as he did in New York last year, ahead of time. It seems to be a way he has. Some people even think the announcement of his Presidential candidacy was no exception to his rule.

The President signed the Hawaiian government bill yesterday, and the island territory now has, what it long needed, a definite, liberal, and stable form of government, under the glorious banner of stars.

Admiral Dewey evinced his usual good judgment in declining to "talk politics" on the eve of his journey to Chicago. Not only a sense of propriety, but real political sagacity supports such a course.

Admiral Dewey was received in Chicago by acres upon acres of enthusiastic citizens. "Organized labor" who had boycotted the Dewey reception, but the people have acclaimed it.

It was Dewey, the great Admiral, who received so royal a welcome in Chicago yesterday, not Dewey, the self-announced Presidential candidate.

invite it without an adequate cause? The course of procedure proposed by Bryan, backed as it would be by sentiments bitterly hostile to England, would lead as certainly to war as cause leads to effect. Are the American people prepared to make so colossal a sacrifice in order that a political party may gain power and a political demagogue be elevated to a position of supreme authority?

Our government, under the conservative and wise administration of President McKinley, has maintained thus far in the British-Boer war an attitude of consistent and sincere neutrality, as we are bound to do by the comity of nations and the most primitive considerations of common sense—unless we are prepared and desire to enter the contest upon one side or the other. It is proposed by Bryan and the party back of him to break through this policy of wise conservatism, to throw down the gauntlet in a quarrel to which we are in no sense a party, and deliberately to invite a war which would be one of the bloodiest and most stubbornly contested wars of history. Can it be possible that any considerable number of the American people will support Mr. Bryan and his followers in this absurd and unstatesmanlike programme?

immediate domain will be dependent in large part upon our retention of the territories which have lately come under our control as among the fortunes of war; for these territories give us a vantage-ground for commanding and controlling this trade which we would not and could not otherwise obtain. And this increase of our commerce and our prestige will, as we have shown, benefit all classes and conditions of the American people, through the quickening and enlargement of our industries in all their manifold channels.

This is the true meaning of expansion—a meaning altogether too broad and wide and deep for the narrow understandings of the men who, for political and other reasons, are placing themselves across the path of progress. These small obstructionists will find, at a not very distant date, how futile are their efforts to prevent the consummation of the inevitable or to stay the progress of the irresistible.

WHAT BRYAN WOULD DO.

The Senate, yesterday, very properly declined to consider Senator Pettigrew's resolution of sympathy for the Boers in their struggle against Great Britain. With the merits of that struggle the present article has nothing to do. The fact of the existence of sympathy for the Boer cause is recognized as a fact. As such, it is probably destined to become, in some degree, a factor in our politics—although it should in reality have no more to do with our politics than with an occultation of Venus.

The manner in which the British-Boer war may become more or less a factor in American politics is already becoming apparent through the efforts of our esteemed opponents of the Democratic party to turn it to their advantage.

Mr. Bryan and the satellites that revolve about him are, in desperate straits for campaign issues. Free silver and free trade are as dead as the traditional "imperial Caesar turned to clay."

The question of "expansion" or "imperialism" is still in a tentative state. It may be loaded, and they are naturally rather chary about committing themselves unreversibly in opposition to a policy which is very likely to command enthusiastic popular support from Maine to California, and from the Canadian boundary to the Gulf. They are, therefore, "on the fence," looking for issues, and ready to jump either way, as the case may seem to warrant.

But upon one thing these statesmen are banking with more or less confidence. Their sails are all set to catch the breeze of Boer sympathy. They hope to secure votes, in unknown and indeterminate numbers, by making flamboyant declarations in favor of the pro-Boer politics some months ago, and the indications are that they will try to work this "racket" for all it is worth from now on to the November election.

Our esteemed opponents may gain some votes by their tactics on this question. They will also lose votes. It is even questionable whether they will not lose more votes than they will gain; for there are indications, thus far, that they will overrule the Boer sympathy act, and will cut themselves with the edged tools which they are handling so clumsily and so carelessly.

Mr. Bryan was interviewed in Chicago yesterday, and he proceeded to tell what he would do, and what the Democratic party would do, in the case the Democratic party were entrusted with the control of national affairs at the coming election. "The Democratic party," observed Bryan, "would express sympathy for these burghers fighting for the right to govern themselves and the sympathy of a great nation like the United States is a moral factor that has weight. The good offices of this nation can be rendered according to the terms of the new Hague code at the proper time, and in earnest. These offers of friendly service would have a great influence."

He is in effect a definite statement that if Bryan were elected President, and the Democratic party placed in power, our government would proceed to mix up in the South African war, and would take sides against England. Mr. Bryan does not state the case in just these words, but such is the logical and true meaning of the language which he employs. For we have already gone as far as friendly diplomacy can take us in tendering our good offices, and to go further would be an open and pre-meditated insult to the government of Great Britain, which that government would be justified in resenting.

The American people—do even those who sympathize with the struggle of the Boers—desire our government to enter deliberately upon a policy of antagonism to Great Britain—a policy which would speedily and almost inevitably involve this country in a war with the most powerful nation on earth? While we may be confident of our ability to win in such a Titanic struggle, is it not the sublimation of folly to

think by acres upon acres of enthusiastic citizens. "Organized labor" who had boycotted the Dewey reception, but the people have acclaimed it.

At New York Hotels.

NEW YORK, April 29.—W. A. DeWitt, O. Davidson, Miss R. Alderman are at the Belvedere; J. H. Alderman at the Continental; Mrs. C. A. Briggs, W. J. Fry and wife, Pasadena, are at the Grand Union.

The Playhouses.

LOS ANGELES THEATER.

"The Playhouse," the newest card in the Frawley repertoire. It is current during the first half of the present week at the Los Angeles Theater, and it is presented in a manner which leaves little room for adverse comment, and which merits the admiration of audiences. The atmosphere, which Mr. Frawley has given to the play is really sumptuous, being much more elaborate than was provided when the piece was presented here a few months ago by the same company.

Falk and Sonnen, the musical comedians, are just as clever as when last here. Their act, which, by the way, is also just the same, was well received.

A. O. Duncan, the ventriloquist,

introduces no new features. His work is well done, especially the musical selections.

The Guitarios, three in number,

are a musical act, the usual curtain raiser, which with falling front-houses and other tricks of the kind have the house convulsed.

Among the holdovers are the Dr. De

reets with their whistling, and the

quartet billed as the "Empire Comedy Four," are not in the least funny, and their singing fair.

Marcella and her birds form is most unique. Si Stubbins, conjurer and comedian, has just as good a bill. He is the typical hayseed. He has a number of jokes which he tells with a strong flavor of Mississippi in his accent, and retires early before his best numbers.

Bobby Taylor is big for the cleverest Irish comedian that has turned the brogue on the local stage for some time. The boy goes in with the exception of his singing, which is done in the vernacular of "Erin's Isle" as to be unintelligible.

Falk and Sonnen, the musical comedians, are just as clever as when last here. Their act, which, by the way, is also just the same, was well received.

C. G. W.

(THE PUBLIC SERVICE)

CASE OF HOLD-UP.

Terminal Franchise not
Granted as Yet.

City Attorney's Opinion
Now Asked For.

Rauscher Convicted and to be
Sentenced Today.

Fight Over Big Copper Mine.
Bondsmen Sued—Teacher's
Mandamus Case.

The City Council yesterday granted the application of the Los Angeles Traction Company for a railroad franchise on a portion of South Vermont avenue, but held up the application of the Los Angeles Terminal Railway Company for a similar franchise in another part of the city, pending the receipt of an opinion from the City Attorney as to an important point involved.

Mrs. Harriet C. Wadleigh retired from the position of librarian of the public library, and was succeeded by Miss May Smith.

The Council has issued an official invitation to the grand lodge of the Independent Order of Foresters to hold its next session in this city.

The case against Patrolman Fowler will be investigated by the Board of Police Commissioners this morning, and a hearing session is expected.

For Rauscher, charged with burglary for breaking into a telephone slot-box at the Natick House on March 15, was convicted by a jury in the Criminal Court yesterday and will be sentenced this morning.

Assuming in his defense that the suit began by W. E. Robinson against the Ivanpah Smelting Company and others, began before Judge Shaw yesterday. Some sensational affidavits in support of a motion to re-open the case for alleged newly-discovered evidence were filed. The motion was denied.

The trial of the suit brought by Postmaster Watkins of Pasadena and a Mrs. Gordan, who was convicted of embezzling \$362 worth of postage stamps, began in Judge Allen's court yesterday, and will be continued this morning.

Mrs. Clara Van Gorder has brought mandamus proceedings against the City Board of Education to determine whether she can remain in office while single and marry and retain her position.

Mr. Frank M. Fowler, who was dismissed from the force on February 26, demands re-instatement.

(AT THE CITY HALL)
ONE FRANCHISE HELD UP.

That Sought by the Terminal
Company Not Granted.
Traction Company Secures What
It Desired—Important Ques-
tion to be Decided.

First—We recommend that the application of W. S. Hook for a franchise on Vermont avenue to operate a steam railroad be granted, for the following reasons:

First.—The property owners along the line of the proposed route have not protested against the same, and as the territory through which it runs is sparsely settled and practically consists of small farms, even if a steam railroad were to be operated, it would not be a serious matter.

Second.—In view of the fact that Mr. Hook is in present of the Terminal Railway Company and has no facilities for operating a steam railroad, we have every reason to believe that the company will not be able to bind upon that company, and he further declared that those attorneys know this.

Third.—The location of the route makes it practically certain that no compensation can be gotten by the city or the property owners along the line.

Fourth.—This franchise is granted for the express purpose of facilitating the construction of a through line to San Pedro, thus providing a competitor to the Southern Pacific, and the present one company has a monopoly of the business.

"For these reasons we recommend that this franchise as applied for, even though it is an evasion of the law upon the subject of street railway franchises."

W. E. Dunn, Esq., spoke at length in opposition to the application. He related the experience of the Council in regard to former applications: told of the changes that have been made in the law; stated that all efforts had been made to conform to the present laws, and then said that the reason a satisfactory law was not passed by the last legislature was not known. The attorney for the other side, however, when they said that the Terminal tends to convert the road into a steam road, for such is not the intention of that company, he said that the law intended to do just that.

"The Terminal is granted a franchise for a long term of years for the operation of a steam railroad through a residential portion of the city without the assurance of the corporation that they will not use steam in running the cars; this especially so in view of the fact that the corporation has agreed to the delivery of the cars over their proposed route.

"First.—The people along the proposed route and in the vicinity of the proposed road are to believe practically unanimous in opposing the operation of a railroad by steam alone or in the vicinity of the proposed route."

"Second.—The fact that the Terminal Railway Company is a steam railroad has been adopted promptly without division or debate. The whole contest was on the application of the Terminal Railway Company for exactly the same kind of franchise as another part of the city, and had the matter come to a vote it is known, the result would have been the same.

"Third.—The character of the route is such as will receive compensation that the corporation will depend upon the report of the City Attorney.

"Fourth.—The franchise which has been submitted to him is one of greatest importance and a decision one way would mean the instant denial of the application, while if he

had the other way, the friends of the measure believe that there is a fighting chance to win out, although it is admitted that they have as yet no positive assurance that victory will be theirs and the people's as well.

The question on which the City Attorney has been asked to give an opinion is this: It having been argued that the application for the franchise railroad (although it is known that no steam road is to be constructed) the applicant had offered to insert in the franchise clause providing that after the construction of the road not more than one steam train shall be run over the line each twenty-four hours, and that in that manner one such train is to run the running, it is to be argued that an immediate revocation of the franchise. The attorneys for the Terminal declare that the provision is binding throughout the life of the franchise.

The attorneys opposing it declare, on the other hand, with great confidence, that such a provision is worthless, and not binding, if future events demand a conversion of the line into a steam railroad; that it would be "repugnant to the grant," as they express it. Now the City Attorney has been asked for an opinion as to whether it is possible to insert in the franchise such qualifying clauses as will effectively and legally bind the franchisee to stand by and not bind the franchisee to construct under the franchise, particularly such a provision as will prevent the franchisee from giving up the franchise.

Unfortunate, it can not be said that an opinion from the City Attorney would carry much weight, since the attorneys who are trying to secure the franchise will assure the granting of the application. Under the circumstances, such an opinion would only serve to strengthen the position of friends of the measure, and it might possibly be used in the effort to cause the members of the Council to refuse to vote against the franchise. It would leave the opponents of the measure in the ground to stand upon, and would, seemingly, narrow the range of the course in which the people desire and expect to be given the franchise.

Unfortunately, it can not be said

that the other way, the friends of the measure believe that there is a fighting chance to win out, although it is admitted that they have as yet no positive assurance that victory will be theirs and the people's as well.

The question on which the City Attorney has been asked to give an opinion is this: It having been argued that the application for the franchise railroad (although it is known that no steam road is to be constructed) the applicant had offered to insert in the franchise clause providing that after the construction of the road not more than one steam train shall be run over the line each twenty-four hours, and that in that manner one such train is to run the running, it is to be argued that an immediate revocation of the franchise.

alarm in the telephone company's at giving his occupation as "inspector and trouble man."

"Trouble man" spoke up Dis-

trive, "they call us that," replied witness.

"Well, I should like your name," said the unsmiling Judge Smith, "so that there is no more hope of healthy happiness in this earth."

"Is there on the other

hand any more de-

lightful and

interesting picture than that of the sun woman when the spirit of renewed life comes to her again and holds up before her the jewels of hope, and the regal garments of rejuvenated health and happy completed womanhood?

"She had been a sufferer for many a year with a broken heart, and other woes," says Mrs. Annie L. Mathews, a lady living in a small house in the Bronx, New York. "She had just turned 50, and was still a invalid. Dr. V. P. Clark, of Buffalo, N. Y., seemed to have no life or energy, but was a beautiful decorated, and an elaborate luncheon was served.

"At times I suffered so much I thought death would be better for me. I had tried doctor after doctor, but none of them failed to do me any good. I commenced to take Dr. Pierce's Favaide Prescription and also Dr. Pierce's Favaide Compound and also Dr. Pierce's Favaide Liniment. The result was that I felt much better. When I had taken four months of the medicine I was well enough to go to work again. I was able to work and earn a living again. To all women I would say, if you are suffering from any disease, seek out a good doctor and take his advice."

TUESDAY, MAY 1, 1900.

TUESDAY, MAY 1, 1900.

The Jewel of Hope.
Is there any other
more pathetic spectacle in this world
than that of the
poor woman weighed
down with
despondency and
misery?

She is at
last convinced in
her very
soul that
there is no
more hope
of healthy
happiness
on this
Or
she is
there on
hand any
more de-
sirous and
inspiring picture than that of the same
woman, the spirit of renewed life
comes to her again and holds up before
the jewels of hope, and the rewards
of rejuvenated health and
happy complete womanhood?

I had been a sufferer for more than one year
and was in great pain. I consulted Dr. Pierce,
Mrs. Annie L. Mathews, a lady living at
Broadway, New York, R. I., in a thankful letter
stated that she had been told by Dr. Pierce
that he had no time to treat me, who
was trying him for disabilities received while a soldier "in the line of duty."
The chisel he had then
least slipped into the pocket while
walking about his apartments on Jackson
street, and forgot to take it out
when he started up town. He found
the box broken when he took
the box out again, and the thought occurred to him that he might then be
accused of burglary, so he simply
shoved the little box, the alarm
ringing under arms, almost before
he knew it.

The jury evidently thought the story
was hard to credit, and Dr. Pierce
remained silent. The result was that
I was found guilty of burglary in the
second degree. The sun set at
6:07 p.m. on March 15. Burglary in the
first degree must be committed after
the sun has set, etc. Rauscher's offense was perpetrated before 6 o'clock.
He got the benefit of any doubt about
the time. He will be sentenced this
morning.

CAUTIOUS LADY.

WRITTEN CONSENT FOR CUPID.

Since the rather painful experience
of Miss Lydia Seeger of Monroe,
who would not give a man a kiss
until he had won her over, although he had ob-
tained a license to solemnize the event,
it appears that young ladies have
taken to giving a written consent to
handsome swains before they let them approach
the person. Cupid's kiss is now
an instance comes from Pomona.

Last Saturday afternoon a very at-
tivated young man slipped guiltily
into the County Clerk's office to get
a marriage license. He gave his name
as Joseph W. Kettling, a citizen of
a state of California; and
to fortify his request he fumbled about
in his jeans and at last handed forth
the lady's formal willingness to-
marry him, to-wit:

MISS MAY SMITH.

County Cupid Kettling is inclined to think that the idea had come on that
ever woman whatever she may do
should send along her own consent to
marry the man applying for the
license. Thus could trouble be saved,

CLERK'S EMBARRASSMENT.

EX-POSTMASTER SUED—CAUSED BY CLERK'S THEFT.

Webster Watkins, ex-postmaster at Pasadena, was in Judge Allen's Court yesterday, suing the bondsmen of Franklin W. Thornton, the clerk who was convicted of embezzlement several months ago and sentenced to a suspended sentence in the penitentiary at San Quentin.

In May 1895, the Pasadena postmaster was George F. Kermaghan, who employed Thornton as a clerk, and required him to give a bond of indemnity and security against any damages. On this bond Thornton secured J. S. Glasscock, E. L. Farris, A. C. Caswell and Dr. J. E. McElroy.

Watkins succeeded Kermaghan, and he made Thornton stamp clerk and register clerk, accepting the job already deposited with his predecessor.

Thornton, a few years afterwards, became postmaster, 1897, of Pasadena, and, saving the money he obtained from their sale to his own use, Watkins is now desirous of recovering the money from the bondsman.

A technical point as to the sufficiency of the pleadings was raised yesterday after the trial had begun and a continuance was ordered for the filing of an amended complaint.

COPPER WORLD MINE.

HAT BEEN TAMPERED WITH.

Arguments began yesterday in the sensational mining suit that has been on trial before Judge Shaw for several weeks past. Mrs. W. E. Robinson is the litigant. She is the widow of J. D. Hanbury, an oil well driller, who is charged by fraud and many sorts of questionable manipulations plaintiff had practically been frozen out of his interest in the mine. It is estimated to be worth millions of dollars, and it is also alleged that the property has been worked most ill-advisedly—and even partly without the knowledge of the company, loosely handled for the purpose of compelling plaintiff to abandon any interest he may have with the other owners.

The trial in question is the "Copper World," situated over on the desert toward Arizona in San Bernardino county. Robinson and F. C. Gay, one of the defendants, claim the value of the property is worth at least \$3,000,000; Hanbury holds that \$50,000 is a fat estimate.

To certain issues of stock and increases in the capital stock of the company, alleged by Robinson to have been made whereby he found himself suddenly in the big mine, Judge Shaw recently sustained his contentions; and late yesterday some has been taken touching the financial condition of the company and what has been done to the mine.

The case will finally close about a week ago. Yesterday the court sat to re-open the cause on the ground that newly-discovered evidence had just come to hand and was made and argued, but delayed by the court.

The affidavits in support of the motion were somewhat sensational. They named some names. It was alleged that for some time the management of the mine had for some time past openly avoided work where copper ore had been found, and run upward of 1000 feet of tunnel drifts, mostly up hillsides, at cost of many thousand dollars, every foot of which it was alleged, has been wasted.

The affidavit of F. C. Gay stated that the mine was in October, 1892, and the quantity of ore in sight at that time was about 15,000 tons, which averaged on the whole about 12.5 per cent copper. Another visit was made in April of the present year, and the smelter operating every day between October and April, it could have consumed only 5500 tons daily, and should have yielded 825 tons bullion, with proper allowances for losses, or 14 cents at 14 cents at the smelter, should have received \$230,000. Gay alleges that when he made the mine about two weeks ago, he found the mine full of waste and that only four tons of bullion were produced daily. He also says the much barren rock was melted, and that cuts in which the richest ore had been found, were covered with barren debris.

Robinson, by affidavit, swore that he

had been on the mine, and he said he had lighter sentiment. The court said he

had been on the mine, and he said he

had been on the mine, and he said he

had been on the mine, and he said he

had been on the mine, and he said he

had been on the mine, and he said he

had been on the mine, and he said he

had been on the mine, and he said he

HE WAS A FORTY-NINER.

Notable California Pioneer to Be Buried Today.

The Late Luther H. Titus of Lamanda Park and His Eventful Life.

There will be buried today a notable pioneer and present citizen of Southern California, Luther H. Titus, of Lamanda Park, who was one of the early comers to the Golden State, and has been closely identified with its progress until now.

Mr. Titus was born October 9, 1822, in the village of Hamburg, in Western New York, of good old colonial stock. The boy was trained on the farm, and his first financial venture was the purchase of a 120-acre farm near Galena, Ill., in 1845, and back to his native town, remaining there until 1849, when he started for California, sailing from New York for Galveston, Tex. There the overland journey began, fraught with excitement and danger to the end. At the Rio Grande he met D. S. Terry, and the longings became for the Gila River, all hand three of the party, the Gila turned, but Titus and his companions pushed on, dodging the bloodthirsty Indians, camping without fires, doubling on their tracks, and finally crossing the Colorado River, overtook and became a part of a company of twenty-eight Americans led by Dr. James E. Winston of Los Angeles.

For a time the company followed the Colorado River at Fort Yuma was an old government wagon box, and the ferrymen, all Indians, took toll in blankets. Being afraid to attack by night, the party always kept their arms in condition, and Mr. Titus came near losing his life through these precautions, when his pony slipped on a rock, but in hurried out some powder to light a fire, he snapped a cap too close to the flint and it exploded, lifting him from his feet and blowing his skull open. A bullet hit his shoulder. While it was a severe accident, it did not stop the travel, the party arriving at San Diego August 13, 1849. He was thus one of the original "49ers."

At San Diego Mr. Titus remained a month, and while there the powder was dug out of his face, grain by grain, with the point of a knife. September 11 Mr. Titus and his San Francisco, going from there to Stockton and to Modocumine Hill, thence to Calaveras and back to San Francisco after a profitable trip. Leaving mining now, our argonaut went into lumber and manufacturing shingles, selling them at \$2 a thousand. In February, 1850, he went to Feather River, but, selling out, proceeded to the Sacramento Valley, at Shasta and at Marysville, where he was taken down with "Trinity fever." This was enough to bring him to a standstill, and on his recovery he went home by way of Panama, reaching the homestead in 1851. In 1869, twenty years from his first venture, he moved to California, going directly to Los Angeles, where he continued to live.

It was necessary to return for his family, and accordingly got a boat to come with him to the Pacific Coast. His family at that time consisted of his wife, who was a Miss Maria Benedict, and who died in 1865; his daughter, Mary, and her husband, Capt. J. C. Newton, now of South Pasadena. They returned directly to Southern California, and made a home on the Homestead ranch, between Lamanda Park and San Gabriel. That ranch became one of the famous ranches of the State under Mr. Titus' care, and is still a very fine property. Here he raised citrus fruit, and here also he embarked in the breeding of fine horses, the head of his stable being Echo, sired by Rydeick's Hambletonian, and a magnificent animal.

For seventeen years, or until 1887, Mr. Titus remained on the Homestead ranch. Not only was he a credit to his people, but his uncommonly kind mind was compassing new inventions and providing new and useful devices for his fellow-men. He invented a device for irrigating land, and canals in a very inexpensive manner, thus conferring an almost incalculable blessing on the country. Then for the benefit of orchardists, he invented a movable irrigation device to aid in picking fruit, a tree-planting apparatus, and a curious variety of hand shears for cutting and picking fruit with the same hand. His inventions, indeed, were many, and also he introduced many new varieties of fruits. In such ways, besides in the public

spirit he always showed, Mr. Titus was a decided force in the upbuilding of this sunny land. Upon leaving the old ranch he established himself upon another some distance away, and there he erected a fine residence, and there he brought in 1881, a new wife, having married on the 1st of October, Miss Eliza M. McLean, of Utica, N. Y. The following year their son was born, baptized by the coming of a boy, who was named Luther Harvey Titus, Jr., and who was to be the day of his death the greatest attachment felt for the boy when he sickened and died, December 24, 1886. It was to the father a blow from which never recovered. Luther, Jr., was brought home from San Francisco and placed in a temporary vault near the residence on the property that he had built for the father. In death they will not be parted. The life of Mr. Titus since his marriage in 1881 has been spent in a quiet life, keeping in excellent order his large properties. He has been identified with every advance in the neighborhood in the establishment of the Lamanda sanitation district. During the past year his exertions with regard to his health, where health might be expected, for it was seen that he was failing. For several months he has been great charge, and oftentimes his mind would wander. Death, however, to him Sunday morning just at daylight. The funeral service will take place today at 2 o'clock from the house, and the interment will be at San Gabriel conducting the services. Mr. Titus leaves a widow and one daughter, Mrs. C. Newton of South Pasadena, and two grand-daughters, Miss May Newton and Miss Franklin Catron.

[IN THE OIL FIELDS.] SELLERS AND DRILLERS.

Gushing Well Sends Up Fullerton Consolidated.

Busy Day on Los Angeles Stock Exchange—Many Stocks, Good Prices.

Yesterday was an excellent day on the Oil Exchange, not so much for the number of shares sold, nor for the total of the cash transactions, as for the many different stocks dealt in and the high prices.

The total number of shares sold was 5,000,000, and the market was active. The sensation of the day was Fullerton Consolidated. The strike of a gushing well, which was reported in this column on Sunday, boosted the stock. It opened at 65 cents, seller, 30 days, and closed at 70 cents, seller, 30 days, a gain of 9½ cents a share. The majority of the sales were made at about 70 cents cash, which is an advance of 20 cents over last week's quotations.

The second stock in point of activity was Alpha, which had such a rapid advance that it is now a good seller at 30 cents a share and above. Wilson was sold to the extent of 900 shares at 57 cents, which is more life than the stock had shown for some time.

The separate sales during the call were as follows: Alpha, 1000 shares at 50 cents; 800 shares at 51 cents; 100 shares at 48 cents. Conoco, 400 shares at 77 cents. Fullerton Consolidated, 100 shares at 65 cents, seller, 30 days; 100 shares at 65 cents, buyer, 30 days; 100 shares at 71 cents, buyer, 30 days. Rommel, 100 shares at 25 cents. Southern Consolidated, 500 shares at 19 cents. Standard, 100 shares at 57 cents.

Bids and offers on other stocks were as follows: Buckhorn, \$3.75 asked; Burlington, 50 cents bid, 50 cents asked; Central, \$1.25 asked, \$1.25 bid; Union, 7½ cents bid, 7½ asked; West-Sam, 7½ cents bid, 7½ asked; West-Sam, 60 cents bid, 70 cents asked.

For petroleum, 12½ per cent gravity, grade 2, fine oil, 100 barrels, bid, 12½ per cent gravity, grade 1, held, \$1.05 was asked.

THE DRILLERS.

The Uncle Sam Oil Company is down nearly 600 feet in its first well in the Kern River district and expects to go nearly 1000 feet before striking the oil zone.

The Little Joker Oil Company is among the recent applicants for favor.

The holding company is in the Modoc district, Riverside county. The officers of the company are F. J. Bauer, president; G. S. DeGarmo, vice-

resident; J. T. Bailey, treasurer, and W. J. Ford, secretary. The company expects to begin work on the Newhall property within two weeks.

Another deal of prospecting is being done on the ranches of House Station on the Santa Monica Electric Line. The Times has already referred to this section as a prospective oil field, although no production has yet been announced. An analysis of the oil made yesterday shows it to be of different quality from any found in Los Angeles, which gives hope.

Oil being as follows: Lubricant, 45 per cent.; distillate, 20 per cent.; asphaltum, 17 per cent. The oil is of a lighter gravity than that found in the city.

Word was received from the Fullerton Consolidated Company, which was still flowing over the casing. This well had been sunk to a depth of nearly 1700 feet, and had produced 100 barrels in keeping in excellent order his large properties. He has been identified with every advance in the neighborhood in the establishment of the Lamanda sanitation district. During the past year his exertions with regard to his health, where health might be expected, for it was seen that he was failing.

Great charge, and oftentimes his mind would wander. Death, however, to him Sunday morning just at daylight.

The funeral service will take place today at 2 o'clock from the house, and the interment will be at San Gabriel.

Mr. Titus leaves a widow and one daughter, Mrs. C. Newton of South Pasadena, and two grand-daughters, Miss May Newton and Miss Franklin Catron.

NOTES.

The Pico Oil Company has just been organized to operate on land west of the city, near Houser Station. E. P. Coligan is president; E. H. Lockhart, vice-president, and H. D. Lombard, treasurer. The troupe is capitalized for \$300,000, and will begin active operations at once on land that is being exploited to be rich oil fields.

Interest in exchange transactions is becoming more noticeable daily, particularly for stocks, which sold recently for \$50, which may cost the holder \$75. And they are scarce at that price.

[Bakersfield, California:] The Petroleum Development Company is pumping from nine wells, and will soon have four others in shape. Its daily production is between 400 and 500 barrels, and besides selling to us in the district, it furnishes fuel for eleven Santa Fe locomotives. In matter of production, this company is making as much as any other in the Kern River territory.

[Bakersfield, California:] The Petroleum Development Company is pumping from nine wells, and will soon have four others in shape. Its daily production is between 400 and 500 barrels, and besides selling to us in the district, it furnishes fuel for eleven Santa Fe locomotives. In matter of production, this company is making as much as any other in the Kern River territory.

[Bakersfield, California:] The first drilling well to be bored in the Kern River district began to run in the Kern River on Saturday, April 28. The well is in the San Joaquin Company's No. 5, on section 5, 29, 28, and was finished in sand and shale, and is bearing stratum having been penetrated at 323 feet of the sand obtained. Subsequently it was sand-bottomed, and was running at 200 barrels per day. When sufficiently cleaned, the well began running over the casing, and is now flowing at the rate of twenty-five or thirty barrels per day.

At San Diego Mr. Titus remained a month, and while there the powder was dug out of his face, grain by grain, with the point of a knife. September 11 Mr. Titus and his San Francisco, going from there to Stockton and to Modocumine Hill, thence to Calaveras and back to San Francisco after a profitable trip. Leaving mining now, our argonaut went into lumber and manufacturing shingles, selling them at \$2 a thousand. MAL JOHN H. SIMPSON.
First call for 75,000 troops aroused his
alma mater, and he promptly "cut" his
for the purpose of recruiting. Arriving
there he found the quota had already
been filled, and he returned, disappo-
inted, to his home. When the call
for 300,000 troops came young Simpson,
left, accompanied by the inspector of the
regiment soon after crossed the Ohio River, and
young Simpson received his last taste of fire
in the battle of Perryville, Ky.

The story, after this, is one of con-
tinuous military activity and frequent
engagements. Several months of
chasing the ubiquitous Morgan and his

gangs all over Central and South-
ern Kentucky, cornering that slippery
outlaw, and his command at Lebanon,
Tenn., and finally defeating him and
capturing his entire supply train, to-
gether with a part of his militia, were
trades that added zest to the young sol-
dier's military ardor. He delights to
recall his participation in the engage-
ment under Rosecrans at Chickamauga
River, lasting an entire week, which resulted
in the utter defeat of the famous Con-
federate, Bragg. In the spring of '63,
Major Simpson was in the confederate army brigade under Gen. Kirby Smith, which
took part in operations of the Chattanooga
and Chickamauga campaign, while in the attack on fighting Joe
Wheeler, he had captured a number of
Confederates and killed and wounded
nearly 600 more. In this action the
Confederates in a single charge captured a battery of
artillery, and with its帮助 drove the
balance of the command into Duck
River, where many were drowned.
Simpson was greatly annoyed at the
spectacle of plucky little Joe Wheeler
plunging with his horse into the water
and hastily wading out of reach, and says: "I am glad he found that safety
which has enabled him, since
to add to his brilliant record in the
general staff because he had reached the
age of 19 years.

After the great battle of Chickamauga,
where many thousands were killed and
wounded, and the dead lay thickly pro-
moted at 17) received special commendation
by Gen. Minty, commanding the bri-
gade, in these words: "Lieut. J. H.
Simpson commanded a squadron which
was not representative of the various
business interests that would be ben-
efited should one or more conventions
come here, it was decided to hold an-
other meeting at 10:30 a.m. Wednesday
morning in the hall of the State
legislature. The meetings invitations
will be extended local politicians and
business men to attend and offer sug-
gestions. The matter of raising funds
will be taken up and an estimate as
to the amount needed will be given out at
this time."

Those who have taken the initiative
declare that the party conventions
would mean much benefit for Los An-
geles. In the last political gathering
Los Angeles was well tried as a con-
vention city, and found to be in every
way satisfactory.

In 1864 young Simpson was promoted to
assistant to the inspector of the

CONTAGIOUS BLOOD POISON

Contagious Blood Poison is the most degrading and destructive of all diseases, as it vitiates and corrupts the entire system.

The first sore or ulcer is followed by little red pimples on the body, mouth and throat, become sore, the glands enlarge and inflame, copper colored splotches appear, and hair and eyebrows fall out. These are some of the milder symptoms; they increase in severity, finally attacking the vital organs; the body is tormented with pain, and becomes offensive smelling.

It is a peculiar disease, and so highly contagious that an innocent person handling the same articles used by one infected with this loathsome disease, may contract it. It is transmitted from parent to child, appearing as the same disease, or in a modified form—like Eczema or Scrofula.

Many an old sore or stubborn skin trouble appearing in middle life, is due and traceable to blood poison contracted in early life. You may have taken potash and mercury faithfully for two or three years and thought you were cured, but you were not, for these poisonous minerals never cure this disease; they drive it from the outside, but it is doing its work on the inside, and will show up again sooner or later.

You can cure yourself as the disease starts, but it is. S. S. S. has cured thousands of cases of Contagious Blood Poison, and it will cure you. It is the only purely vegetable blood purifier known, and the only antidote for this poison. S. S. S. cleanses the blood thoroughly of every particle of the

poison—there is never any return of the disease.

CURE YOURSELF AT HOME. which gives a history of the disease in all stages, and is the result of many years of

close study of blood poison and actual experience in treating it. You can cure yourself perfectly and permanently at home, and your secret is your own. Should you need any information or medical advice at any time, write to Dr. S. S. S. They have made a life study of blood diseases, and will give your letter prompt and careful attention. Consult them as often as you please; we make no charge whatever for this service. All correspondence is conducted in the strictest confidence.

you are SAFE in buying stock, and
SURE to make money.

The Only Company in the Sunset District

Intending to build a refinery and storage tanks for the accommodation of the millions of gallons of oil known to underlie this now famous oil field. We have 660 acres in close proximity to the richest wells in the field, and experts who have carefully examined our holdings assure us that our prospects are the best in Southern California. Drilling is easy and wells shallow, tremendous flows having been struck at 400 feet. We expect to have an output of from three to four thousand barrels within ninety days. We are

Selling Stock at 10c a Share—Invest Now.

This offer can not last long, for the stock is selling rapidly and only a limited number of shares remain of this 10c block, then it goes higher. Do not wait for a better investment, for you NEVER will have it offered. Call or send for prospectus. We court the most careful investigation.

OFFICES: 638 Market Street, Bakersfield, Rooms 419-420 Douglas Block, Los Angeles. Make Checks and Drafts Payable to J. W. EVANS, Secretary. Tel. Main 380. Open Evenings, 7 to 8.

NEW QUARTERMASTER.

Maj. Simpson Goes on Duty at
Soldiers' Home.

A Soldier in the Union Army
When a Mere Boy—Story
of Military Activity.

Major John H. Simpson, late Fourth Michigan Cavalry, assumed the office of Quartermaster of the Pacific Branch Soldiers' Home today. The military story of Maj. Simpson, if space permitted the telling in full, would describe the experiences of a lad who entered the service when scarcely 16 years of age, through patriotic impulse, pluck and energy, attaining the distinction of an appointment upon the general staff because he had reached the

MILITARY DIVISION OF THE MISSISSIPPI, AND WAS AGAIN ADVISED TO CAPTURE AND ACTING ASSISTANT CHIEF QUARTERMASTER OF THE MILITARY DIVISION OF THE MISSISSIPPI.

IN WHICH HE SERVED WITH DISTINCTION UNTIL AUGUST 2, 1865, WHEN HE WAS MUSTERED OUT OF SERVICE.

IN 1870 Maj. Simpson came to San Francisco, and engaged in commercial

and financial pursuits until 1875, when he was offered a position in the Interior Department.

He accepted, and became a member of the General Staff.

He was promoted to Captain in 1877, and to Major in 1881.

He was then assigned to the California State Guard.

He was promoted to Lieutenant Colonel in 1885, and to Colonel in 1887.

He was then assigned to the California State Guard.

He was promoted to Lieutenant Colonel in 1885, and to Colonel in 1887.

PARAGRAPHETTES.

Contractors Figuring.

Representatives of contractors in various parts of the country are here, figuring on the San Pedro breaker job, which stone quarries are holding over the ground. The bids will be opened May 14, and work probably will be resumed by the 1st of July.

Funeral of Capt. Douglas.

Capt. H. C. Douglas, who fell in the City Hall Saturday and died afterward excepting his right eye, will be buried over the ground. The bids will be opened May 14, and work probably will be resumed by the 1st of July.

A Boy's Tumble.

Yesterday morning, little Tommy, nearly 2 years old, was playing with other boys in front of his parents' house on Alpine street, and started to jump from the stone wall to the sidewalk when he lost his balance and fell to the walk, fracturing his left forearm, sustaining a fracture of his left arm.

The department was called out at 6:33 o'clock last night for a small blaze in the room of Mrs. Bothwell, landlady of the lodging house at No. 453 South Spring street, who was injured by the explosion of a coal-oil lamp. Loss about \$200 covered by insurance.

J. A. Pollard, an engineer in the oil well at the Knightsbridge, was treated by Police Surgeon Hansen yesterday forenoon, the first finger of his right hand having been crushed. An effort was made to save the finger, but it may have to be amputated.

There are undelivered telegrams at the Western Union Telegraph Company office from H. H. Schracken, or Pacific Coast Publishing Company, San Francisco; Herbert G. Smith, Mr. Coate, Mr. Pass Parra, Miss Emma F. Bacon.

MARRIAGE LICENSES.

An increased demand for literature, descriptive and illustrative of Los Angeles and Southern California, has recently been made upon the Chamber of Commerce. The interest of the people seems to be focussed on this section as a winter resort, and likewise as a marvelously productive region. Yesterday nearly 500 pamphlets were sent out from the chamber.

As to Prayers for Rain.

"Our prayers for rain assume that the order of the laws of nature could be improved," said Dr. A. C. Williams at the Methodist ministers' meeting yesterday morning in this city. "Was God wise when He finished His work of creation and His plan for the conduct of the world?" But the whole philosophy of the question was put in a nutshell by an old person, who said the best time to pray for rain was during a wet spell.

Without Gloves.

James Donahue and J. L. Hatchett were fined \$5 each yesterday by Justice Austin for disturbing the peace by fighting in the Southland Athletic Club last Friday night. Fighting was on the programme of the club that night. Donahue and Hatchett were not listed as the performers. They fought outside the ring without gloves, their hands being cut and punishment.

Junketing Trip.

Fifteen of the directors of the local Chamber of Commerce will visit Santa Ana today, and return to Los Angeles in the evening. They will leave the Arcade Depot at 8:30 o'clock this morning, and arrive in Santa Ana to be taken for a drive through the valley. The return trip will be made by the Santa Fe train arriving in the city at 5:45 o'clock. It is expected that the board of directors of the San Diego Chamber of Commerce will also participate in the drive.

An Impromptu Prize Fight.

The tedium in the neighborhood of the public market on Ninth street was relieved by an impromptu prize fight yesterday morning. A son of Fred, the boy down the gully, beat the speckled-face kid that he would "knock the spot off him," and at once entered upon the task. They fought several rounds in the style of trained pugilists, but just as the affair was becoming interesting the omnipresent cop came in on the run, and captured the sports.

Scenes in His Room.

"I want it understood that he never was engaged to me, and that I was the one, not my father, who insisted on the cancellation of the marriage license," said Mrs. Lydia Seeger, whose betrothed from Minnesota, who called at The Times office yesterday. The unlucky man in this case was Victor L. Denison of Monroe, who, Miss Seeger says, had planned a little surprise her without her consent. "He says he courted me, but he never did a bit," said the indignant Miss Seeger. As the indignant bard put it: "Alas, poor Verick!"

NEWS AND BUSINESS.

Remember the needy. Save your cast-off clothing, beds, bedding or savings for poor families of the city. A request is made to all to contribute and clothing for poor children. There are many poor families in need of whole some food, and potatoes, beans, greens, etc., are most welcome. Please thankfully receive. Drop a card to Fred Vrigstad, at the "Good Samaritan" (formerly Capt. Fraser's place), No. 126 East Seventh street, and anything you have can come in on the run, and capture the sports.

Learn all about Southern California, its resources, cost, discount sales on shells, curios and novelties, nothing reserved in the store. Winkler's Curios, 246 S. Broadway.

A package of cards was left at newspaper department of The Times owner can have same by calling for them.
